

What is Löwe?

- Number 1 in rust prevention in Ireland for over 40 years.
- May be painted straight onto rust.
- Minimum surface preparation required other than the removal of dirt, oil, loose material etc.
- The first coat binds to the surface and has the effect of neutralising existing rust. The second and subsequent coats create a barrier to further corrosion.
- Löwe Rust Primer available in Tile Red and Dove Grey. The Löwe Rust Paint is available in eight popular colours (see below).
- Very versatile - multiple applications around the home & garden, industrial application, on the farm and at sea.
- May be applied by brush or roller. Can also be sprayed once thinned.

Application and Coverage

Paint straight on rust. Apply a minimum of two coats allowing 24 hrs between coats.

If spraying, thin by up to 10% with Douglas White Spirits and apply a minimum of 3 coats. Xylene may be used as an alternative to White Spirits where quicker drying is required.

Coverage is circa 10 square metres per litre. Apply two coats to give a combined thickness of a minimum of 75 microns. If spraying, apply a minimum of 3 coats.

Löwe Rust Paint is tintable by up to 3% (by weight) of universal tinter.

LÖWE PAINT STRAIGHT ON RUST!

Home & Garden

- Ideal for steel windows, garden fences, gates and railings, lawnmowers, bicycles and tools.
- For use as an auto rust primer - paint straight on rust and touch up with regular car finish.
- Protects against rust creep.
- Will adhere to most plastics to give a uniform appearance.
- Excellent for external wooden surfaces - Specially formulated to flex with the wood to prevent cracking and flaking. It's microporous nature also allows the wood to breathe.
- Ideal for most types of garden furniture.
- Excellent weather resistance and high build properties.
- Heat resistant to 70°-80°C which makes it suitable for radiators and hot water pipes etc.
- For use on caravan chassis, scooters, trailers, hitches, roof racks, battery brackets etc.
- A great base coat for most other paints.

At Work

- Wheelbarrows, bin trolleys, steel and wooden shelving.
- Structural steelwork and woodwork in the house and garage.
- Workbenches, compressors, motors and conveyors.

On The Farm

- Lead free with a content of less than five parts per million.
- Suitable for cattle sheds, fences etc - ensure paint is fully cured if near animals.
- Gates, railings and waterbutts.
- Farm machinery, tractors and trailers - the colours have been chosen with farmers requirements in mind.
- Galvanised roofs - prepare first with a mordant solution.
- Powerful as a wood primer with great performance in wet conditions.
- Resists sea air. Don't forget - always a minimum of 2 coats.

At Sea

- On steel and wooden hulls above the waterline. Apply inside and out. Boat trailers, winches and all ferrous metal parts.

IDEAL FOR RAILINGS

IDEAL FOR FARM BUILDINGS

IDEAL FOR MACHINERY

IDEAL FOR METALWORK

IDEAL FOR TRACTORS

STOP RUST DEAD!

NEW!

LÖWE RUST REMOVER GEL

- For use where very thick or persistent rust is a problem.
- Removes rust quickly and effectively back to bare metal and prepares the metal for painting.
- Like all Lowe products it can be applied directly to rust.
- Comes in a 750ml size.
